Minister, first impressions: the information provided in the Operational Review is sadly suspect (there is much more good than bad at FTS)...the indications given to me by Perm. Sec. about the Financial Manager and Chief Architect were wrongful, they both gave me very professional responses to my many searching questions. I am very worried that Tony Muscat may have been 'injured' to the point of no return...he is an asset that FTS just should not lose...to be frank, I have also read ALL the Minutes of Board Meetings since January 2015 ...and I cannot find fault with very professional considerations and decisions. Samuel too gave very valid contributions...let's not rush to throw anyone out except EDWARD CARUANA ! Said in truth, Philip.

Ok. In your hands. Should I move to change board and remove Samuel?

Minister,

Meeting with EDWARD CARUANA was brought forward to 09:00 ...went just fine and he and his chum ,the billiards player, will be moving to Mtarfa today.

God is on our side, thus far.

Philip

Treat him like any normal employee. Fair but firm. No one outside good governance regulations. He might say that he takes cheques to Gozo to make life easier for Gozitan contractors. Listen to him but let us address issues effectively through structures. Enjoy

Minister and Chairman,

I consider it my duty to make you aware of a formal claim against FTS received today through the Courts for c 5,400 euro from Dr. Michael Caruana's business in Gozo relating to building materials never formally or even knowingly ordered by FTS in August 2015, when they were consigned to a certain Xmun Camilleri (purportedly acting on Edward Caruana's instructions).

FTS is, of course, in time to merely pay the amount without any comment at all, if that is what it wishes to do.

Philip

I have made it very clear that I want Tony to stay. My regret is that steps I took recently should have been taken long ago but had no smoking gun.

No one came forward with any tangible proof. Had been promised before your time but none materialised.

Permit me to tell you as a brother: you did too little and too late.

Transferring Edward with same incredibly high remuneration package is worse than doing nothing at all. All Gozo knows what he was up to...someone is going to ask where from during the last 2 years Edward got c 400k to build a six apartment block in Rabat.

Believe me, you're all playing with fire with highly flammable material all around in each FTS project's file.

But Sir what you are doing NOW, after you have plenty of tangible evidence is what you will be judged upon...nobody thinks you were involved then...but now your duty is clear.

On Perm. Sec. Rita SCHEMBRI, I had less than 20% of what I have on the Caruanas !

Forgive me, Sir...it's out of respect that I risk saying so much to you.
